

Harini M

COMPUTER SCIENCE AND DESIGN GRADUATE · SOFTWARE DEVELOPER

House number 33 THANAL, Surya Nagar Chandranagar extension Pirivusala Palakkad, Kerala 678007

☎ (+91) 8590897809 | ✉ harinim8637@gmail.com | 📱 Harinim004 | 🌐 harini-muthu-krishnan

Summary

Computer Science and Design graduate skilled in software engineering, with experience building scalable applications and real-time systems using Flutter, Firebase, and Python. Strong in problem-solving, system design, and delivering efficient, production-ready solutions.

Skills

Programming Languages	Python, Java, C, C#, Dart
Frameworks & Technologies	Flutter, Firebase, Flask
Core Concepts	Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems
Tools & Platforms	Git, Android Studio, Unity, VS Code, OpenCV, Firebase Firestore, Agora RTM
Web Technologies	HTML5, CSS, JavaScript, PHP
AR/VR Development	Unity, AR Foundation, Meta Spark
Soft Skills	Leadership, Team Management, Public Speaking, Event Coordination
Languages	English, Malayalam

Education

Government Engineering College Kozhikode

BTECH IN COMPUTER SCIENCE AND DESIGN ENGINEERING

Kozhikode, India

Oct. 2022 - Present

Experience

IEEE Malabar Subsection Summer Internship Program

Remote / India

AR/VR INTERN

Jun. 2025 – Jul. 2025

- Developed interactive AR/VR applications using Unity and AR Foundation with real-time 3D object interaction and user input handling.
- Improved application performance and user experience through efficient scene management and interaction design.

Tamilan Skills (RISE Internship Program)

Remote / India

DEVELOPER INTERN (AR/VR, ANDROID, WEB, DATABASE)

Jun. 2025 – Jul. 2025

- Recognized as a **Top Performer in India** for AR/VR development.
- Built multi-domain applications across mobile, web, and backend systems, demonstrating full-stack development skills.
- Developed and integrated applications using Flutter, Firebase, and database systems with a focus on performance and scalability.

Freelance Project — PRDS Ettukara Yuvajana Sanghom

Kerala, India

AR GAME – METAHUNT

Apr. 2024

- Designed and developed an AR-based treasure hunt application using Unity and AR Foundation with marker-based tracking and real-time interaction.
- Implemented core game logic and interaction workflows to support seamless user experience during live events.
- Delivered a production-ready application within deadlines as a paid freelance project.

Tech Pulse Hackathon

Kozhikode, India

FLUTTER DEVELOPER (PARTICIPANT)

Feb. 2024

- Developed a real-time event coordination mobile application using Flutter and Firebase during a competitive hackathon.
- Implemented live data synchronization, push notifications, and backend integration for efficient communication between users and organizers.

Projects

Major Project

ARIVU — AR-BASED INTERACTIVE LEARNING SYSTEM

2026

- Developed an AR-based learning application to visualize interactive 3D models using Unity and Vuforia.
- Implemented quiz modules with Firebase Authentication and Firestore for real-time performance tracking.
- Built a Python-based evaluation system integrated via a Flask API for automated assessment.
- Technologies:** Unity · C# · Python · Flask · Firebase
- ARIVU – GitHub Repository**

Mini Project

HOLOHOLA — REAL-TIME AR CALLING APPLICATION

2025

- Developed a real-time communication app with audio/video calling using Flutter and Firebase.
- Integrated emotion detection using Python for analyzing user interactions.
- Implemented backend integration and call handling mechanisms for seamless communication.
- **Technologies:** Flutter · Firebase · Python · Unity
- **HoloHolo** – [GitHub Repository](#)

Hackathon Project (TinkerHub)

PURRSISTANCE — VR GAME

2025

- Built a VR-based game using Unity with physics-driven interactions and real-time input handling.
- Implemented deterministic game logic and optimized performance for smooth gameplay.
- **Technologies:** Unity · C# · Physics Engine
- **Purrsistance** – [GitHub Repository](#)

Freelance / Event Project

METAHUNT — AR TREASURE HUNT APPLICATION

2024

- Developed an interactive AR application with real-time object detection and location-based puzzles.
- Deployed for live events, engaging 600+ participants.
- **Technologies:** Unity · AR Foundation · C# · ARCore

Volunteer Project — ISTE Aakriti Camp

QR-BASED ATTENDANCE SYSTEM

2024

- Built a Python-based attendance system using OpenCV and QR scanning.
- Automated real-time tracking and report generation for event management.
- **Technologies:** Python · OpenCV · QR Code

Academic Project

FRONTEND DEVELOPER — SAME PINCH (PHOTO SHARING PLATFORM)

2024

- Developed a web-based social platform interface for sharing and interacting with images by similarity.
- Designed an engaging UI with image upload, tagging, and interactive feed features.
- **Technologies:** HTML · CSS · JavaScript
- **Same Pinch** – [GitHub Repository](#)

Leadership Experience

2025 – 26	Chairperson , ISTE Student Chapter, GEC Kozhikode	Kozhikode, India
2024 – 25	Program Coordinator , IEEE Computer Society, GEC Kozhikode	Kozhikode, India
2024 – 25	Forum Head (Senior Committee) , ISTE CSD Department Forum, GEC Kozhikode	Kozhikode, India
2023 – 24	Forum Head (Junior Committee) , ISTE CSD Department Forum, GEC Kozhikode	Kozhikode, India
Dec. 2024	Associate Program Coordinator , IEEE AKCSSC 10	Kerala, India
Mar. 2024	Event Coordinator , IGNIFIX ISTE State Convention, GEC Kozhikode	Kozhikode, India
Jan. 2024	Event Coordinator , ISTE Aakriti Camp, GEC Kozhikode	Kozhikode, India
